The latest updates suggest we no longer need to isolate for 5 days. Recommendations include staying away from others when you have symptoms and a fever, only to return once you feel \(\strice{\sing{\sin better and fever-free.

If your child is sent home with a fever, we will allow them to return if they are fever-free for 24 hours without medication. We will determine if a sibling needs to go home on a case-by-case basis depending on the severity of symptoms and/or illness.

Diarrhea – If your child has three loose stools, we will call you to have your child dismissed. They may return after 24 hours without any loose stools. Conjunctivitis – If we notice any signs of conjunctivitis, we will call you to dismiss your child. He or she can return once they are on prescribed medication for 24 hours.
